

PMA/TOOLS AG

## Customer information about REACH Regulation and Candidate List

Dear customers,

PMA/TOOLS AG is in close contact with its suppliers and have asked those for confirmation in written form, that delivered products to PMA/TOOLS AG do not contain any Substances of Very High Concern (SVHC) in the Candidate List in a mass concentration above 0,1% according to Article 33 of REACH Regulation (EC) No. 1907/2006.

In case of any subsequent supplier information concerning this matter, we will inform you as our customer immediately, should a raw material of our products be included in the Candidate List.

Yours sincerely,

PMA/TOOLS AG
